**INFORMATION**

(Includes course manual, snacks in the morning and afternoon)

- A minimum \$300 deposit is required to reserve a space in the course.
- Full tuition is due no later than **one** month prior to the course start date.
- If registrant cancels **3 weeks or more** prior to the course, a non-refundable \$100 will be charged and the balance tuition refunded.
- If registrant cancels **within 3 weeks** of the course, a non-refundable \$150 will be charged and the balance of the paid tuition will be issued in a credit letter good towards a future course.
- Canceling or being absent on the **first day** of the course regardless of reason is considered an automatic cancellation, tuition is forfeited and there is no refund - **no exceptions.**

A 4-day intensive tutorial in the diagnostic and therapeutic application of *animal normalizaation techniques* as applied to the cranio-sacral system.

These techniques use the principles of motion testing, inherent tissue motion and motion in relation to the restrictive barrier. Comparisons between humans and animals. Emphasis will be placed on palpatory skills.

This course will cover the following:

- Neuroanatomy of the cranio-sacral system of canines
- Arthrokinematics of the cranial bones
- Review of connective tissue interrelationships
- Cranio-sacral treatment as it integrates with classic cranial osteopathy and the gait cycle
- Sequence of treatment
- Manipulation of neuro tissue, blood vessels, and nerves
- Neuro Integrational Patterns (NIP) - gait

Lecture, demonstration, and hands-on applied practice of the techniques for the following areas: cranium & pelvis for small animals. Approved by Oregon and Washington Veterinary Licensing Board for CEU's.

**LOCATION:** La Quinta, 155 Day Island Road, Eugene, OR 97403  
541 - 344 - 8335
